

Weather & Travel

TA / I~AS programs are offered in the great outdoors. Weather, both (good and bad), may impact on the quality of our adaptive sports or adaptive outdoor adventure learning experiences. Safety is our top priority. It is imperative that our adaptive guests and instructors/volunteers can safely travel to the location where our programs are provided, and also when returning back home.

We constantly monitor weather forecasts to help us make decisions, particularly as they relate to on time, delayed or cancelled programs. We will keep you informed when scheduled programs require intervention due to inclement weather.

Please check our **Course Reservation/Cancellation Policies**. In the event that we have to cancel, shorten or re-schedule a program due to inclement weather, we will work with you to find a mutually acceptable solution.
